Product Name :

Human Ear Model, 5 Parts

Product Code :

SLE/BL/50

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

The **Human Ear Model, 5 Parts** (Product Code: SLE/BL/50) is a dissectible model of the human ear, built 5–6 times larger than the natural ear so that small hearing structures can be pointed out clearly in front of a class. It separates into 5 parts, is coloured to distinguish the different structures, and is numbered with a key card. Schools, nursing colleges and audiology courses looking for an ear model for anatomy lab use in India choose it mainly for explaining how hearing works. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, and supplied mounted on a base.

Specifications

Parameter	Detail
Type	Dissectible human ear model
Number of parts	5, dissectible
Enlargement	5–6 times larger than the natural ear
Mounting	Mounted on a base
Finish	Appropriately coloured
Identification	Numbered, with key card
Teaching focus	Explaining the hearing mechanism

Typical Use

The model is built for the lesson that asks, "How do we hear?" Teachers follow a sound wave from the outer ear, through the ear canal to the eardrum, across the tiny bones of the middle ear and into the inner ear, where vibrations are turned into nerve signals. Because the model is enlarged 5–6 times and comes apart into 5 pieces, students can see how the outer, middle and inner ear fit together and then examine each region in turn using the numbers and key card.

It works well in high school biology lab equipment sets for the sense organs chapter, and in nursing, speech therapy and audiology courses where ear anatomy underpins practical work. After each session, reassemble the 5 parts before storing so none go missing, keep the model covered to limit dust, and clean painted surfaces gently with a soft, slightly damp cloth.

Manufacturer

This ear model is made by Jain Scientific Equipments Private Limited, which operates in Ambala, Haryana, under the ScienceLab brand. The company is incorporated as a private limited company (CIN U29309HR2020PTC087597) and produces its range at a licensed factory at 449, HSIIDC Industrial Area, Saha, Ambala (Factory Licence AMB-ONLINE-CHD-J-414).
