Product code	SLE/SAH/28
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is a Classroom Cleaning Kit Used For?

The kit is built for a daily hygiene round: the trolley is wheeled from room to room, the spray and wipes are used on desks, door handles, light switches and shared apparatus, and a bottle of hand gel is left at each classroom or lab entrance. Keeping all the products on one two-shelf trolley means nothing has to be fetched from a store room between rooms.

A practical routine is to spray or wipe high-touch surfaces between lessons, work from cleaner areas towards dirtier ones, and keep the chemicals on the lower shelf, out of reach of younger pupils. Schools planning a new school laboratory setup in India often add a kit like this so that practical benches can be wiped down after every class.

What to Specify When Ordering

- The number of complete kits, each with 1 trolley, 10 packs of wipes, 12 sprays and 12 hand gels.
- Any extra wipes, sprays or hand gel you want as separate refill stock.
- The delivery address and whether the goods go to one campus or several schools.
