Description :

Door Handle Wrap (Product Code: SLE/SAH/33) is a silver-embedded surface covering used on door handles, trolley handles and similar high-traffic contact points in schools, hospitals, shops and offices; its product specification describes the covered surface as antiviral and antibacterial. It comes as 300 mm x 75 mm strips, ten to a pack, that are wrapped around and adhered to the handle. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
Type	Low-maintenance surface covering; the product specification describes it as self-cleaning, with virucidal technology
Typical contact points	Door handles, shopping trolleys and other high-traffic touch points
Active element	Embedded silver particles
Stated performance	The product specification describes an antiviral and antibacterial surface and states protection for users from up to 99.5% of viruses, including Covid 19
Fitting	Can be adhered to almost any surface
Material weight	510 g/m² (lightweight)
Fire classification	M1 (as given in the product specification)
Dimensions	300 mm x 75 mm
Pack	Pack of 10
Product code	SLE/SAH/33
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is a Door Handle Wrap Used For?

A door handle is one of the few surfaces that almost everyone in a building touches, which makes classroom, laboratory, washroom and staff-room doors a common route for germs to pass between people. The grip area is wrapped in this covering, which the product specification describes as giving an antiviral and antibacterial surface, and the same strips can be used on trolley handles in canteens, libraries and stores.

Before fitting, clean and dry the handle so the wrap adheres well, then wind the strip around the part people hold and press the ends down firmly. Check the wraps during routine cleaning rounds and replace any that lift or tear. Facilities teams sourcing lab consumables and hygiene items together often fit wraps on every door of a science block in one visit.

What to Specify When Ordering

- The number of handles to cover; each pack contains 10 wraps of 300 x 75 mm
