Product Name :

Double Trolley with Shallow and Deep Trays

Product Code :

SLE/HF/31

Description :

Double Trolley with Shallow and Deep Trays (Product Code: SLE/HF/31) is a double width storage trolley fitted out with two tray depths: shallow trays for small, flat items and deep trays for bulkier apparatus, each sliding on its own pair of runners. The combination lets one trolley carry both the small components and the larger equipment needed for a practical session. Built by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, it suits school science departments and teaching laboratories that move kit between rooms every day.

Specifications

Parameter	Detail
Type	Double width storage trolley
Trays supplied	8 shallow and 4 deep trays
Runners supplied	12 pairs
Castors	Larger castors with brakes, for added stability
Storage space	25% more than ScienceLab standard trolleys
Intended use	Moving class science equipment between classroom and prep room

Typical Use

A common way to organise this trolley is to give the eight shallow trays to small items — slides, magnets, lenses, connecting leads, slotted masses or worksheets — and keep the four deep trays for beakers, stand parts, power supplies or boxed models. Teachers can then hand one shallow tray to each student group while the deep trays hold the shared, larger apparatus at the front of the room.

For departments choosing mobile laboratory furniture in India, the mixed-tray format is a flexible middle ground between an all-shallow and an all-deep trolley. Engage the castor brakes before pulling trays out, load the heaviest items into the lower trays, and wipe trays with a damp cloth and mild detergent after practicals involving chemicals, soil or plant material.

Manufacturer

Jain Scientific Equipments Private Limited manufactures this trolley and trades as ScienceLab from its base in Ambala, Haryana. Besides teaching apparatus, the company produces storage and transport furniture for school, college and hospital laboratories — read more on our company profile page.

Related Hospital Furniture

If you are weighing up tray layouts, these alternatives and parts are worth comparing:

- Double Trolley with Deep Trays — the all-deep version for rooms that mostly move bulky apparatus
- small
- dth
