Product Name :

Double Trolley with Shallow Trays

Product Code :

SLE/HF/32

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Double Trolley with Shallow Trays (Product Code: SLE/HF/32) is a double width trolley that arrives with sixteen shallow (F1) trays on runners, giving a large number of separate, pull-out compartments for small practical items. It lets a teacher or technician sort components by topic or by student group and move them all in one trip between the prep room and the classroom. The trolley is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, for primary and secondary schools, colleges and training centres building an organised school laboratory setup.

Specifications

Parameter	Detail
Type	Double width storage trolley
Trays supplied	16 shallow (F1) trays
Runners supplied	16 pairs, fitted for added stability
Castors	Larger castors with brakes
Storage space	25% more than ScienceLab standard trolleys
Intended use	Transporting class science equipment between classroom and prep room

Typical Use

Sixteen shallow trays work well when a class is split into small groups: each group gets its own tray of circuit components, magnets, hand lenses, rulers or specimen dishes, and the tray goes straight back onto its runners at the end of the lesson so missing pieces are spotted at once. Other schools dedicate one tray per topic — electricity, light, forces, cells — so the trolley becomes a portable library of small practical kits.

During a school lab renovation or when a subject moves rooms, this trolley keeps small parts sorted rather than boxed up loose. Label the tray fronts, keep liquids in closed containers inside the trays, and set the castor brakes before students start taking trays out.

Manufacturer

Made in Ambala, Haryana by Jain Scientific Equipments Private Limited — the company behind the ScienceLab brand — this trolley is part of a range of classroom and laboratory storage furniture supplied to schools and institutions. Our company profile explains more about who we are.
