**Product Name :**

Freestanding Partition Wall

**Product Code :**

SLE/HE/17

## Description :

The freestanding partition walls are popular for businesses, Local Authorities, schools and colleges, especially where COVID-19 testing booths are being created.

The partitions can be positioned between members of the public, staff and students, providing privacy for the person completing the test and also protection by creating a physical barrier between people.

The partitions stand on two steel low profile feet and the frame is reinforced with a steel spigot that fits up inside the legs, connecting the partition frame to the feet.

The partition walls are made using durable aluminium alongside white PVC foam infill panels. Each screen is finished with a rubber gasket to ensure a sealed and secure fit.

Both the aluminium framework and PVC infill panel are wipeable and can be easily cleaned and disinfected.

**Dimensions:** 100cm Wide x 160cm High

These social distancing partitions are ideal for providing both a physical barrier between people and also for providing privacy.
