Product Name :

Hazard Warning Tape: Corrosive

Product Code :

SLE/CH/240

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Hazard Warning Tape: Corrosive (Product Code: SLE/CH/240) is a white self-adhesive vinyl tape printed with the corrosive hazard pictogram, used to mark the shelves, cupboards, trays and bench areas where acids, alkalis and other corrosive substances are stored or handled. The pictogram repeats every 75 mm with a blank area between symbols, on a tape 25 mm wide that comes as a 66 m roll. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, alongside the safety items and chemistry lab equipment in India and abroad that it provides to schools, colleges and laboratories.

Specifications

Parameter	Detail
Hazard shown	Corrosive pictogram
Material	Self-adhesive vinyl tape
Colour	White
Print pattern	Pictogram repeated every 75 mm, with a blank area between symbols
Width	25 mm
Supplied as	66 m roll

Typical Use

Corrosive substances can burn skin and eyes and eat into metal fittings, so the places they live in a laboratory need to be obvious to everyone. Laboratory staff run this tape along the shelf edges of an acid or alkali cupboard, around the rim of trays that hold concentrated reagents, on the lids of waste acid and alkali containers, and across the front of the bench area reserved for dilutions. A single strip tells a student, cleaner or visitor at a glance that goggles and gloves are needed before anything is touched, and it helps new staff find the corrosive store quickly when setting up a practical.

Apply the tape to a clean, dry, grease-free surface and press it down firmly along its length, starting from one end to avoid trapped air. Mark the location of the spill kit with the same tape so it is easy to find in a hurry. The tape adds a visual warning to a well-organised lab storage cabinet; it does not replace the individual label that every chemical container must carry.

Supplier

Jain Scientific Equipments Private Limited, trading as ScienceLab from Ambala, Haryana, supplies this tape together with the storage and safety items laboratories order with their apparatus. Vendor registration details for the company are GSTIN 06AAECJ8618A1ZT and DGFT Importer-Exporter Code AAECJ8618A, under which it ships internationally. See our company profile for more.
