Description :

Biology Lesson Plan Series 7-8 (Product Code: SCL199/1.30) is a set of 12 laminated colour charts prepared according to the programme for biology 7-8, with content in the Albanian language. The charts cover human anatomy topics such as long-bone structure, blood, teeth, the eye, ear and skin, and finish with the structure of plant and animal cells. Each one-page chart measures 70 x 100 cm on plastic sheet, and the series is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala.

Specifications

Parameter	Detail
Number of charts	12
Chart size	70 x 100 cm
Format	One-page, laminated, coloured
Material	Plastic sheets
Language	Albanian
Programme	Biology 7-8
Topics	Anatomical construction of a long bone; composition of blood; liver, auxiliary organ of the digestive tract; human teeth; extraction (excretory) apparatus; positions of the fetus before birth; vegetative nervous system; structure of the eye; structure of the ear; structure of the skin; structure of the plant cell; structure of the animal cell

Typical Use

Each chart lines up with a single lesson: put up the chart for the day's topic, introduce the structures it shows, then leave it on display while students complete their notebooks. The long-bone, blood and teeth charts support a unit on the skeleton and body tissues; the eye, ear and skin charts cover the sense organs; and the liver and excretory charts round off digestion and waste removal. The chart on positions of the fetus before birth gives teachers a clear, factual visual for reproduction lessons.

The final two charts, on plant and animal cells, make a natural bridge to microscope work and pair well with three-dimensional cell models. In a school biology lab setup, the laminated sheets can be wiped with a damp cloth after use and stored flat between terms.

Manufacturer

This chart series is manufactured by Jain Scientific Equipments Private Limited, an Ambala, Haryana company whose products are sold under the ScienceLab name. Alongside teaching charts, the company makes biology models and laboratory apparatus for institutions in India and international markets. Details about the organisation are on the ScienceLab profile page.
