Description :

Human Stomach, on Stand (Product Code: SLE/BL/86) is a two-part stomach model that opens to reveal the inside of the organ as well as the layers of its wall. It shows both the longitudinal and circular muscle layers, the cardiac and pyloric parts, the mucous membrane and gastric canal,the supplying arteries and nerves, and the position of the peritoneum. The model is coloured, numbered with a key card and mounted on a base for bench or cabinet display. As an anatomical models manufacturer, ScienceLab designs pieces like this for biology, nursing and medical teaching; it is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala.

Key Details

Parameter	Detail
Type	Human stomach model, mounted on a base
Construction	Separates into two parts
Muscle layers	Longitudinal and circular muscle layers
Regions shown	Cardiac and pyloric parts
Internal features	Mucous membrane, gastric canal
Vessels and nerves	Arteries and nerves
Other	Position of the peritoneum
Finish and key	Appropriately coloured, numbered with key card

Typical Use

Teachers use the outer surface to name the regions of the stomach and trace its blood and nerve supply, then open the two halves to show the mucous membrane lining and the gastric canal along which liquids pass. Because the longitudinal and circular muscle layers are shown separately, the model makes it easy to explain how coordinated contractions churn food and push it towards the pylorus, and how the cardiac and pyloric regions control entry and exit. The peritoneal covering helps students understand how the stomach is suspended within the abdominal cavity.

It fits naturally into a biology lab setup for schools in India as well as nursing and pharmacy teaching rooms, where it supports topics such as digestion, gastric secretion, ulcers and pyloric narrowing. Encourage students to handle the halves over a table, match each numbered feature to the key card, and close the model after use. Dust it with a soft cloth and keep it away from direct sunlight to preserve the colours.

Manufacturer

Jain Scientific Equipments Private Limited, incorporated under CIN U29309HR2020PTC087597, trades as ScienceLab and is based in Ambala, Haryana. Its licensed factory at 449, HSIIDC Industrial Area, Saha, Ambala operates under Factory License AMB-ONLINE-CHD-J-414. Our comp
