Product Name :

Lupa Dore

Product Code :

SCL281/041

Image not found or type unknown

Description :

Lupa Dore (Product Code: SCL281/041) is a large hand magnifier used to enlarge leaves, insects, rocks, fabric and fine print for close observation in classrooms and science labs. Its wide 150 mm diameter and gentle 2X magnification give a big, forgiving field of view, and the plastic handle makes it easy for young pupils to hold or pass around a group. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer and laboratory equipment supplier in India, at its own factory in Ambala, as biology lab equipment for schools in India.

Specifications

Parameter	Detail
Type	Hand magnifier (hand lens)
Magnification	2X
Diameter	150 mm
Handle	Plastic
Product code	SCL281/041
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is a Large Hand Magnifier Used For?

A wide, low-power magnifier is often the first optical instrument children use. With Lupa Dore held between the eye and the object, pupils can trace the veins of a leaf, count the segments of an earthworm, compare sand grains from different places or look at the texture of cloth and paper. Because the 2X lens is so broad, two or three children can look at once, and the image stays steady even when small hands are not perfectly still — ideal for nursery and primary science corners.

For a sharp view, hold the object in good light and move the magnifier slowly towards or away from it until the detail comes into focus. Never look at the sun through the lens, and do not leave it lying in sunlight, where it can focus heat onto paper or a desk. Clean the lens with a soft cloth only.

OEM Manufacturer

Lupa Dore is manufactured by Jain Scientific Equipments Private Limited, which uses the ScienceLab name, at its own licensed factory in Saha, Ambala, Haryana. As the OEM, the company makes the magnifier itself rather than reselling another firm's stock, and schools, institutions, dealers and importers can order direct from the factory without an agent. More about the business is on the company profile.
