Description :

Air Thermometer 1 (Product Code: SCL295/048) is a white plastic, spirit-filled thermometer used to measure air and room temperature in laboratories, classrooms and outdoor weather studies. It reads from -30 °C to +50 °C and shows both °F and °C scales, and its non-toxic spirit fill makes it a sensible choice around children. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India, as laboratoryequipment for schools in India and abroad.

Specifications

Parameter	Detail
Type	Air thermometer, non-toxic spirit-filled
Temperature range	-30 °C to +50 °C
Scales	°F and °C
Body material	Plastic
Colour	White
Usage	Laboratory
Product code	SCL295/048
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is an Air Thermometer Used For?

An air thermometer records the temperature of the surroundings rather than of a liquid. In the lab it logs the room temperature that should be noted alongside results in reaction-rate, solubility or enzyme practicals. For geography and environmental science, pupils can place it in a shaded spot outdoors and record readings at the same times each day to build a weather log; the range down to -30 °C covers cold winter mornings as well as hot afternoons.

The dual scale also makes a ready-made teaching aid for converting between Celsius and Fahrenheit. For a true air reading, keep the thermometer out of direct sun and away from heaters, lamps and open doors, give the spirit column a few minutes to settle after moving it, and read the scale at eye level.

OEM Manufacturer

Air Thermometer 1 is a product of Jain Scientific Equipments Private Limited, trading as ScienceLab, which acts as the OEM and assembles it at its own licensed factory in Saha, Ambala, Haryana. Schools and colleges get manufacturer-direct supply, while dealers and importers can plan repeat consignments with the same source — tell us your volumes. Find out more on the company profile.
