Description :

Dropper Bottle 1 (Product Code: SCL314/057) is a 60 ml coloured glass bottle with a dropper, used to hold and dispense stains, iodine and other solutions that are better kept out of bright light in biology and chemistry laboratories. The tinted glass cuts down the light reaching the liquid, while the bottle remains chemical and heat resistant. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Material	Glass bottle
Colour	Coloured glass
Capacity	60 ml
Dispensing	With dropper
Chemical resistance	Chemical resistant
Heat resistance	Heat resistant
Product code	SCL314/057
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Coloured Dropper Bottle Used For?

In a biology prep room, coloured dropper bottles usually hold the stains students reach for during slide work: iodine solution for starch in onion or potato cells, methylene blue for cheek cells, and similar dyes that are added one or two drops at a time. In chemistry, the same bottle suits solutions such as silver nitrate that are traditionally stored away from light. It fits naturally into a staining kit for biology labs in India.

Since the coloured glass makes the contents harder to see, mark each bottle clearly with the solution name and date of preparation. Keep the bottles in a closed cupboard when not in use, and never swap droppers between stains, as even a trace of one dye can spoil another.

OEM Manufacturer

Dropper Bottle 1 comes from ScienceLab as the original equipment manufacturer. Jain Scientific Equipments Private Limited, the company behind the ScienceLab name, produces it at its own licensed factory in Saha, Ambala, Haryana, and ships factory-direct to schools, colleges, dealers and importers. Buyers building up a matched set of stain bottles over several terms can come back to the manufacturer for repeat orders; simply ask us. See our company profile.
