**Product Name :**

Human Teeth Model, Lower Jaw

**Product Code :**

SLE/BL/90

# Description :

**Human Teeth Model, Lower Jaw** (Product Code: SLE/BL/90) is a base-mounted model of the human lower jaw used to show the position of every tooth in the lower jaw for biology, dental and nursing teaching. Each tooth position is numbered and identified on a key card, and the model is appropriately coloured and neatly finished. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM and school laboratory equipment manufacturer, at its own factory in Ambala, India.

## Key Details

| Parameter | Detail |
|---|---|
| Shows | Position of all the teeth in the lower jaw |
| Identification | Numbered, with key card |
| Mounting | On a base |
| Finish | Appropriately coloured and neatly finished |
| Product code | SLE/BL/90 |
| Manufacturer | Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM |
| Country of origin | India (made in Ambala, Haryana) |

## What Is the Lower Jaw Teeth Model Used For?

Learning the names and order of the teeth, from the incisors at the front through the canines and premolars to the molars at the back, is a basic step in human biology, dental and nursing courses. This model lays out the teeth of the lower jaw in their natural positions, so students can count them, name each type from the midline outward and relate each tooth's shape to its job in biting, tearing or grinding food.

Because every position is numbered, a teacher can cover the key card and ask students to identify the teeth, which makes the model a quick tool for revision and practical tests. The base keeps it steady on a bench during close group work. Schools completing a biology lab setup in India often place it on the anatomy shelf beside the skull and dentition models.

## What to Specify When Ordering

- Presentation: this base-mounted model, or the separately listed lower jaw model on a stand
- Number of models per laboratory or classroom
- Any other teeth models to be quoted together, such as the incisor, molar or dentition development models

## OEM Manufacturer

Jain Scientific Equipments Private Limited, which trades as ScienceLab, is the OEM of the Human Teeth Model, Lower Jaw and manufactures it at its own licensed factory at Saha, Ambala, Harya ort shipm deale nd repea
