Description :

Spoon Spatula (Product Code: SCL340/070) is a white porcelain spatula with a spoon-shaped end, used to scoop, transfer and portion powders and crystals in school, college and analytical laboratories. At 120 mm long and chemical resistant, it gives chemistry students a non-metallic tool for reagents that should not touch steel, a small but constant item of chemistry lab equipment in India. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEMmanufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Material	Porcelain
Colour	White
Length	120 mm
Chemical resistance	Chemical resistant
Usage	Laboratory
Product code	SCL340/070
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Porcelain Spoon Spatula Used For?

Students use the spoon end to lift a measured scoop of solid from a reagent jar and tip it onto a weighing boat, into a test tube or onto a watch glass. Porcelain does not rust and resists most laboratory chemicals, so the spatula is useful for salts and oxidising solids that could stain or attack a steel blade, and its white surface shows any leftover residue clearly.

Handle it with care, since porcelain is hard but brittle: do not drop it or use it to lever lids. Wipe it clean between chemicals to avoid cross-contamination, then wash and dry it before returning it to the drawer; schools placing a school lab equipment bulk supply order often allow one spatula per bench.

OEM Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, the OEM that makes this porcelain Spoon Spatula at its own licensed factory at Saha, Ambala, Haryana. Schools, colleges, dealers and importers buy it factory-direct, which keeps quotations and repeat orders with the manufacturer rather than a trader. For vendor registration, the company's GSTIN is 06AAECJ8618A1ZT and its Legal Entity Identifier is LEI 3358004HRD1JIVXKYX49. See the ScienceLab company profile for more.
