Description :

Pezafiltra (Product Code: SCL342/071) is a lidded laboratory filter item, listed with a corundumlid and a diameter of 40–50 mm, used for filtration and gravimetric work in analytical and teaching laboratories. Chemistry teachers, lab technicians and college analysts use such items when a precipitate or sample must be filtered, dried and weighed without losing material. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, among the chemistry consumables it sources for laboratories.

Specifications

Parameter	Detail
Listed description	Filter with corundum lid
Diameter	40–50 mm
Lid	Corundum (as listed)
Product code	SCL342/071
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Pezafiltra Used For?

In gravimetric analysis a solid is separated from its liquid, dried and weighed, and every transfer risks a small loss. A lidded filter vessel in the 40–50 mm range keeps the sample contained through these steps, while the lid reduces contamination from dust and limits moisture pick-up as the vessel cools before weighing.

The original catalogue entry for Pezafiltra is short, so please confirm the body material, lid fit and exact diameter with us before ordering, especially if the item must match an existing analytical method. Colleges that source chemistry consumables from one supplier in India can add it to the same enquiry as glassware and reagents.

What to Specify When Ordering

- The diameter you need within the 40–50 mm range.
- The number of pieces required.
- Your intended use (filtration, drying or weighing), so the correct design can be confirmed.

Supplier

Jain Scientific Equipments Private Limited, which trades as ScienceLab, supplies Pezafiltra from Ambala, Haryana, sourcing it for schools, colleges and analytical laboratories together with glassware and other consumables. Ask us to confirm the exact design and diameter while we prepare your quotation, so any open points are settled before dispatch. Company background is on the ScienceLab company profile.
