Description :

The House Fly, the Mouth Part, and the Whole Body (Product Code: SCL401/0100) is a prepared microscope slide used to study the house fly's feeding mouthparts and overall insect body form in biology and health-education lessons. Students and teachers use it to link insect anatomy with how flies spread contamination, and the coloured preparation is carried on borosilicate glass. As zoology lab equipment for insect studies, it is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a laboratory instruments supplier in India.

Specifications

Parameter	Detail
Subject	House fly: mouth part and whole body
Slide material	Borosilicate glass
Preparation	Coloured
Box	Plastic; white; rectangular
Listed dimensions	25.4 mm x 76.2 mm (1 x 3 in)
Use	Laboratory
Product code	SCL401/0100
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the House Fly Slide Used For?

The house fly does not bite or chew; it feeds with a sponging proboscis whose soft, pad-like tip soaks up liquid food. Viewing the mouth part under the microscope lets students see this structure for themselves and understand why flies moisten solid food before feeding, which is one route by which they carry germs onto what people eat. The whole-body view then shows the three body regions, the large compound eyes, a single pair of wings and the three pairs of legs typical of insects.

Teachers use the slide both in classification lessons, where the single pair of wings places the fly among the true flies, and in hygiene topics that explain why food should be covered. A stereo microscope or the low-power objective of a compound microscope gives the most useful view of the whole insect, while the proboscis tip rewards a closer look at higher magnification.

Supplier

ScienceLab, legally Jain Scientific Equipments Private Limited, is a supplier of laboratory and teaching materials in Ambala, Haryana. It sources insect preparations such as this house fly slide for schools, colleges, teacher-training institutes and resellers, and can put the slide on a single quotation with microscopes and entomology items. The ScienceLab profile has more about the company.
