Description :

Ear Construction (Product Code: SCL233/0137) is a 6x magnified PVC model of the human ear used to teach how hearing works, from the outer ear through the middle ear to the inner ear, in biology and health-science classes. Its enlarged hearing bones, tube and canals make the tiny middle- and inner-ear parts visible to a whole class. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Regions shown	Outer ear, middle ear, inner ear
Structures	Hearing bones, tube, canals, etc.
Magnification	6 times
Construction	3-dimensional PVC moulding
Colouring	Non-toxic dyes
Product code	SCL233/0137
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Ear Structure Model Used For?

Hearing depends on a chain of structures, most of them hidden inside the skull and only millimetres across. A lesson typically follows sound from the ear canal to the eardrum, across the chain of hearing bones in the middle ear and into the fluid-filled inner ear, where the canals also explain our sense of balance. At six times natural size, the Ear Construction model lets students follow each step.

It fits sense-organ chapters in school biology, speech and hearing modules, and first-level anatomy courses. As an ear model for the anatomy lab that teachers can pass around, it also suits a quick quiz: point to a region and ask whether it belongs to the outer, middle or inner ear and what job it does.

OEM Manufacturer

Ear Construction is made by ScienceLab, the name under which Jain Scientific Equipments Private Limited trades. The company is the OEM for this model and manufactures it at its own licensed factory at Saha, Ambala, Haryana, India, supplying schools, colleges, dealers and importers without a trader in between. Visit the profile page to learn more.

Quotations, repeat orders for extra classrooms and any questions about the model's parts are all handled by the manufacturer.
