Description :

Urinary System (Product Code: SCL245/0143) is a magnified three-dimensional anatomical model used to teach how the body filters blood and removes urine in school and college biology classes. Moulded in PVC and coloured with non-toxic dye, it gives students an enlarged, hands-on view of the urinary organs working as one system. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Key Details

Parameter	Detail
Subject	Human urinary system
Construction	3-dimensional PVC moulding
Colouring	Non-toxic dye
Scale	Magnified
Product code	SCL245/0143
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Urinary System Model Used For?

The urinary system is made up of the kidneys, the ureters, the urinary bladder and the urethra, which together filter waste from the blood and control the body's water and salt balance. A magnified model lets a teacher show the path urine takes, from its formation in the kidneys to its storage and release, far more clearly than a flat diagram can.

Use the Urinary System model when teaching excretion in secondary biology, and in nursing or paramedical courses that cover kidney health. Ask students to name each organ in turn and describe what happens there, then move to a sectioned kidney model to look inside the organ that does the filtering. It is a practical addition to any human biology model set.

OEM Manufacturer

The Urinary System model is an original product of ScienceLab, the brand under which Jain Scientific Equipments Private Limited trades. As the OEM, the company makes it at its own licensed factory at Saha, Ambala, Haryana, India, and supplies it directly to schools, medical and nursing colleges, dealers and importers. Tender and institutional buyers who need vendor details can note the company's GSTIN 06AAECJ8618A1ZT and LEI 3358004HRD1JIVXKYX49.

Quotations are prepared by the manufacturer, and follow-up orders or replacement parts can be arranged with us directly. Learn more on the ScienceLab profile.
