Description :

Digestive System (Product Code: SCL255/0148) is a three-dimensional PVC model of the human digestive tract used to teach how food is processed from the mouth cavity to the rectum in biology and health-science classes. The oral cavity, pharynx and upper oesophagus aresectioned along the median sagittal plane, the liver is shown with the gallbladder, and thepancreas is opened to reveal its interior. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM scientific instruments manufacturer in India, at its own factory in Ambala.

Specifications

Parameter	Detail
Coverage	Human digestive tract from mouth cavity to rectum
Sagittal section	Oral cavity, pharynx and first part of the oesophagus, dissectedalong the median sagittal plane
Accessory organs	Liver with gallbladder; pancreas dissected to expose internal features
Parts	Removable parts
Scale	Described as life-size; the listing also states 3–4 times magnification (please confirm when ordering)
Construction	3-dimensional PVC moulding
Colouring	Non-toxic dye
Product code	SCL255/0148
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Digestive System Model Used For?

Digestion is easiest to teach as a journey. With this Digestive System model a teacher can start at the sectioned mouth and pharynx, show how swallowed food enters the oesophagus and follow the tract all the way to the rectum, pausing at the liver, gallbladder and pancreas to explain where bile and digestive enzymes join the process.

Removable parts let students lift organs away and see what lies behind them, which helps with questions about the position of abdominal organs. The model supports secondary biology, nutrition and home-science lessons, and nursing or paramedical anatomy. Add it to a human body model kit for your biology lab when one model needs to cover a complete organ system.

OEM Manufacturer

ScienceLab is the brand of Jain Scientific Equipments Private Limited, the OEM that makes the Digestive System model at its own licensed factory at Saha, Ambala, Haryana, India. Schools, nursing institutes, dealers and importers receive it factory-direct, with the manufacturer rather than a [illegible] is on th[illegible]
