Description :

Male Genitals (Product Code: SCL293/0167) is a laminated wall chart used to teach the anatomy of the male reproductive system in secondary school, college and health education settings. Teachers use the 70 cm x 100 cm chart on the classroom or laboratory wall when coveringhuman reproduction, adolescence and reproductive health, often alongside its femalecounterpart. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEMmanufacturer of biology lab equipment, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Topic	Male reproductive organs (male genitalia)
Type	Wall-mounted chart
Finish	Laminated
Size	70 cm x 100 cm
Application	Laboratories and classrooms
Product code	SCL293/0167
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Male Genitals Chart Used For?

Teachers use the chart to name the male reproductive organs, such as the testes, scrotum, epididymis, vas deferens, seminal vesicles, prostate gland and penis, and to trace the path sperm take from where they are produced to where they leave the body. It also helps explain how testosterone drives the changes of puberty.

Keeping the chart displayed during a reproduction unit gives students a neutral, scientific reference and the correct vocabulary for discussion. Many schools pair it with the female chart and a pelvis model, and senior classes can link it to gamete formation by meiosis.

OEM Manufacturer

The Male Genitals chart is manufactured by ScienceLab, the trading name of Jain Scientific Equipments Private Limited, which is the OEM and makes it at its own licensed factory at Saha, Ambala, Haryana, India. Buyers therefore get the chart factory-direct, whether they are schools, colleges, dealers or importers. For institutional vendor registration, the company's details are GSTIN 06AAECJ8618A1ZT and LEI 3358004HRD1JIVXKYX49. See the ScienceLab company profile for more.
