Description :

Fetal Positions Before Birth (Product Code: SCL303/0172) is a laminated wall chart used to show how a baby may lie in the uterus in the weeks before delivery, in biology and health-science classrooms. Among the biology teaching aids on human reproduction, its 70 cm x 100 cm sheet lets a teacher explain head-down and breech positions to a whole group at once. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer and laboratory instruments supplier in India, at its own factory in Ambala.

Specifications

Parameter	Detail
Topic	Positions of the fetus in the uterus before birth
Type	Wall-mounted chart
Finish	Laminated
Size	70 cm x 100 cm
Intended setting	Laboratories and classrooms
Product code	SCL303/0172
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Fetal Positions Chart Used For?

Late in pregnancy, the way the fetus lies affects how labour and birth proceed. In a head-down (cephalic) presentation the head leads through the birth canal, in a breech presentation the buttocks or feet come first, and in a transverse lie the baby rests across the uterus. Teachers use the chart as a shared reference when introducing terms like these, before students meet them in textbooks or clinical training.

It suits secondary biology units on human reproduction as well as nursing, midwifery and paramedical classes where learners must describe how a baby is positioned. Hang it at eye level near the demonstration bench so a pelvis or birth model can be held up beside it during the explanation.

OEM Manufacturer

Jain Scientific Equipments Private Limited trades as ScienceLab and is the OEM for the Fetal Positions Before Birth chart, producing it at its own licensed factory rather than buying it in from a trader. The company is registered under CIN U29309HR2020PTC087597, and its factory at 449, HSIIDC Industrial Area, Saha, Ambala holds Factory Licence AMB-ONLINE-CHD-J-414. Nursing schools, colleges, dealers and importers deal with the maker directly for quotations and repeat orders. Read more on the ScienceLab company profile.
