Product Name :

Dope

Product Code :

JSS-328/0184

Image not found or type unknown

Description :

Dope (Product Code: JSS-328/0184) is a laminated health-education wall chart used to teach the dangers of illicit drugs, commonly called “dope”, in school and college classrooms. Teachers and counsellors display the 70 cm x 100 cm chart in laboratories and classrooms, often with the smoking, alcohol and AIDS charts from the same range, when running substance-awareness lessons as part of their biology teaching aids. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Topic	Dope (illicit drugs) – health education
Type	Wall-mounted chart
Finish	Laminated
Size	70 cm x 100 cm
Application	Laboratories and classrooms
Product code	JSS-328/0184
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Dope Chart Used For?

Drug education is most effective when it is factual and calm. Teachers use the Dope chart to explain how drugs such as narcotics, stimulants and cannabis alter the way the brain and nervous system work, why repeated use leads to tolerance and dependence, and how drug misuse damages physical and mental health, studies and family life.

The chart also gives a neutral starting point for talking about peer pressure, refusal skills and where young people can find help. Schools often display it during awareness weeks or in biology and life-skills lessons as part of a health-education chart series, following their own curriculum and counselling guidance when planning each session.

OEM Manufacturer

ScienceLab is the OEM (original equipment manufacturer) of the Dope chart and produces it at its own licensed factory at Saha, Ambala, Haryana, India. ScienceLab is the brand of Jain Scientific Equipments Private Limited, which supplies health-education charts factory-direct to schools, colleges, institutions, dealers and importers and handles repeat-order questions itself.
