Product Name :

Laboratory Stand with Accessories

Product Code :

SCI-666/035

Image not found or type unknown

Description :

Laboratory Stand with Accessories (Product Code: SCI-666/035) is a retort stand kit to which clamps and rings are attached to hold burettes, test tubes, flasks and other glassware at achosen height during experiments. Built from a powder-coated cast iron base and a chrome-plated mild steel rod, it arrives with 2 metal rings and medium clamps, so a single kit prepares abench for heating, filtering or titrating. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Kit contents	Base and rod, contours (as listed), 2 metal rings, medium clamps
Base	Cast iron, powder coated
Rod	Mild steel, chrome plated
Holds	Burettes, test tubes, flasks and other glassware, via the clamps
Product code	SCI-666/035
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Retort Stand Used For?

Think of the stand as a vertical framework that can be rebuilt for each practical. Fix a ring low on the rod with a gauze on top and it becomes a heating station for a beaker; set a ring higher and it carries a filter funnel above a collecting flask; attach a clamp and it grips a boiling tube at an angle over a flame or holds a burette above a titration flask. For anyone setting up a retort stand for lab work in India, the included rings and clamps cover these common practicals straight out of the box.

Screw the rod firmly into the base before loading anything, and position the stand so that the glassware sits over the base. Add rings and clamps from the bottom up, keeping the heaviest vessel lowest on the rod. Where more clamps are needed, boss heads fix them at right angles to the rod, and schools looking for a lab stand, clamp and boss head in India can order all three together.

What to Specify When Ordering

- The number of complete kits (each with base and rod, 2 metal rings and medium clamps).
- Any additional rings, clamps or boss heads beyond the kit.
- The glassware you plan to hold, so clamp sizes can be matched.
- Confirmation of the listed "contours" item, if it matters for your set-up.
