Description :

T-Shaped Glass Tube (Product Code: SCI-685/060) is a three-way glass connector used to split one gas or liquid line into two, or join two lines into one, in chemistry and physics laboratory set-ups. Its side arm leaves the straight run at a right angle, and all three ends share a 7 mmdiameter so the same rubber tubing fits every branch. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India, for itschemistry lab glassware range.

Specifications

Parameter	Detail
Shape	T-shaped
Diameter	7 mm
Material	Glass
Heat resistance	Heat resistant
Chemical resistance	Chemical resistant
Colour	Clear
Product code	SCI-685/060
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is a T-Shaped Glass Tube Used For?

A T-piece lets one supply serve two points. Typical uses include feeding gas from a single tap to two burners or two reaction vessels, tapping a side connection off a line to a manometer or pressure gauge, adding a bleed or vent to a suction line, and joining two delivery tubes into one outlet. Because the glass is clear, students can watch liquid levels, bubbles or condensation as they pass the junction.

Connect rubber tubing to each arm and add a pinch clamp on any branch that must be shut off during the experiment. Keep the working pressure low, support long tubing runs so they do not pull on the joint, and rinse the tube straight after use so reagents do not dry inside the bore.

OEM Manufacturer

The T-Shaped Glass Tube is made by the OEM itself: Jain Scientific Equipments Private Limited, known by its trade name ScienceLab, at its licensed factory in Saha, Ambala, Haryana, India. Schools, colleges, laboratory dealers and importers buy it factory-direct rather than through a trader, and replacement pieces for breakages can be requested from the same source — ask us.

For vendor registration, tender and institutional buyers can note the company's GSTIN 06AA[illegible] are on th[illegible]
