Description :

Glass Bottle, for Liquid Reagents (Product Code: SCI-621/098) is a 60 ml transparent glass reagent bottle with a narrow mouth and sanded stopper, used to store and pour small quantitiesof liquid reagents in school and college laboratories. The narrow neck gives controlled pouringand limits evaporation, while the clear glass shows the contents at a glance. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Material	Glass
Capacity	60 ml
Colour	Transparent
Mouth and closure	Narrow mouth with sanded stopper
Resistance	Chemical resistant; heat resistant
Product code	SCI-621/098
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Liquid Reagent Bottle Used For?

Reagent shelves in teaching labs hold rows of small stoppered bottles, one for each dilute acid, salt solution or test reagent used in practicals. The 60 ml size keeps a bench-level quantity handy: students pour what they need into a test tube or beaker, then replace the stopper at once.

A sanded stopper works well for acids and neutral salt solutions, but strong alkalis such as sodium hydroxide can make ground glass surfaces stick, so keep those in bottles with rubber or plastic closures. Hold the stopper between your fingers while pouring instead of laying it on the bench, which keeps it clean and avoids mixing up stoppers between bottles.

What to Specify When Ordering

- Closure: narrow mouth with sanded stopper (this listing); capped and wide-mouth bottles are listed separately.
- Capacity: 60 ml (code SCI-621/098).
- Quantity: one bottle per reagent on each shelf or bench.

OEM Manufacturer

ScienceLab is the brand of Jain Scientific Equipments Private Limited, a lab glassware manufacturer in India and the OEM of this Glass Bottle, for Liquid Reagents. Production is carried out at the company's own licensed factory at Saha, Ambala, Haryana, and bottles are supplied factor the comp inform
