Description :

Wide-Mouthed Glass Bottle 60 ml (Product Code: SCI-607/104) is a small coloured glass bottle with a wide opening, used to hold working portions of chemical reagents in school, college and teaching laboratories. Its 60 ml size and heat-resistant glass make it a practical piece ofchemistry lab glassware for individual student reagent sets, where each bottle carries just enoughof a chemical for one bench. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)** , an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Capacity	60 ml
Material	Glass
Mouth	Wide mouthed
Colour	Coloured glass (confirm the shade when ordering)
Intended contents	Chemical reagents
Heat resistance	Heat resistant
Product code	SCI-607/104
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the 60 ml Wide-Mouthed Bottle Used For?

The bottle's main job is to keep a small, labelled portion of a reagent at the point of use. Instead of passing a large stock jar around the room, a technician decants a working quantity into each 60 ml bottle, so students handle less material and the main stock stays clean. The wide mouth lets a spatula reach crystals and powders easily, and it is just as convenient to fill through a small funnel.

Coloured glass reduces the light reaching the contents, which helps with reagents that should not stand in bright light. A row of these bottles is a tidy way to lay out the many solids needed in small amounts for qualitative tests and salt analysis. Label every bottle with the chemical name and hazard before it goes out, keep it closed between uses, and return it to a tray so it cannot roll off the bench.

What to Specify When Ordering

- Capacity: 60 ml, product code SCI-607/104.
- Shade: the bottle is listed as coloured glass, so tell us the shade you prefer.
- Closure: the listing does not state the stopper or cap type; specify what you need.
- Quantity: bottles per reagent set multiplied by the number of benches or student groups.
