Description :

Laboratory Safety Rules (Product Code: SCI-981/108) is a laminated wall chart used to display the rules of safe conduct that students must follow during practical work in school, college and training laboratories. At 70 cm x 100 cm it gives teachers a large, permanent reference to point to during the safety briefing at the start of each session. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer and laboratory equipment supplier in India, at its own factory in Ambala.

Specifications

Parameter	Detail
Topic	Rules for safe work in the laboratory
Format	Wall-mounted chart
Size	70 cm x 100 cm
Finish	Laminated
Setting	Classroom and laboratory
Product code	SCI-981/108
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Laboratory Safety Rules Chart Used For?

Safe habits are easier to build when the rules stay in plain view rather than only in a handbook. A chart like this supports the routine safety talk and the points teachers commonly stress: wear eye protection and a lab coat, tie back long hair, never eat, drink or taste anything in the lab, report breakages and spills at once, and know where the first-aid box and exits are.

Ask new students to read the chart aloud in their first practical, and refer back to it whenever a rule is broken or a new hazard is introduced. Mount it near the entrance or the teacher's bench so it is the first thing seen on entry. Schools equipping a room with safety goggles, aprons and a first aid box usually add the rules chart at the same time.

OEM Manufacturer

The Laboratory Safety Rules chart comes from Jain Scientific Equipments Private Limited, which trades as ScienceLab and is the chart's OEM (original equipment manufacturer). It is manufactured at the company's licensed factory at Saha, Ambala, Haryana, and dispatched factory-direct, so institutions and dealers deal with the maker rather than a middleman. If you need identical charts for more laboratories later, ask us for a repeat order under the same code. Visit the ScienceLab profile for company details.
