Product Name :

Automatic Titrating Burette

Product Code :

SLE/P/22

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Automatic Titrating Burette (Product Code: SLE/P/22) is a 50 ml borosilicate glass burette combined with a 1000 ml polyethylene reservoir bottle, used for repeated titrations in college, school and routine analytical chemistry laboratories. It has a Schellbach strip, blue ringgraduation with 0.10 ml subdivisions, press-button dosing and a microscrew for fine end-pointcontrol. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, alaboratory equipment supplier in India, for volumetric analysis work in Indian and internationalmarkets.

Specifications

Parameter	Detail
Type	Automatic titrating burette
Burette material	Borosilicate glass with Schellbach strip
Graduation	Blue ring graduation
Capacity	50 ml
Subdivision	0.10 ml
Accuracy class	Class A (as listed)
Tolerance	±0.05 ml
Reservoir	Polyethylene (PE) bottle, 1000 ml; high chemical resistance, no danger of breakage
Dosing	Press button for precise dosing
Fine control	Microscrew with exact spout tip
Product code	SLE/P/22
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is an Automatic Titrating Burette Used For?

An automatic burette takes the repetitive refilling out of routine titration. Titrant is stored in the 1000 ml reservoir bottle and a press button provides precise dosing, so a series of titrations can be run with far less handling of the stock solution. It suits acid–base, redox and precipitation titrations in college practicals and routine analysis, and is a step up from the simple burette in a titration kit for schools in India.

Near the end point, switch to the microscrew and let the exact spout tip deliver titrant drop by drop, reading the meniscus against the Schellbach strip and blue ring graduation. Check that the titrant is compatible with borosilicate glass and polyethylene, keep the reservoir closed to limit evaporation of standard solutions, and rinse the burette with fresh titrant before each new series.
