Product Name :

Balance Rocker Bucket

Product Code :

SLE/MAT/07

Description :

Balance Rocker Bucket (Product Code: SLE/MAT/07) is a bucket balance used to compare and measure the weight and volume of materials, solid or liquid, in school maths and science classes. It comes complete with weights of plastic and metal and has a built-in compartment for storing them, while simpler models are available on request. The balance is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Key Details

Parameter	Detail
Use	Compare and measure the weight and volume of materials
Materials handled	Solids or liquids
Weights	Supplied complete with weights of plastic and metal
Storage	Built-in weight storage compartment
Other versions	Simpler models available on request
Product code	SLE/MAT/07
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Rocker Bucket Balance Used For?

Because the buckets take liquids as well as solids, the balance can answer questions a plain beam cannot. Pupils can pour water into one bucket and find how many weights balance it, or fill both buckets to the same level with two different materials and discover that equal volumes do not always weigh the same. That observation is an early step towards the idea of density.

Keep the plastic and metal weights in the built-in compartment between activities so the set stays complete, and check that the empty buckets balance before each measurement. Wipe up spills straight away and dry the buckets after liquid work. As a hands-on item in a school maths lab, it connects measurement, estimation and recording results in a table.

What to Specify When Ordering

- Whether you need this model, complete with plastic and metal weights, or one of the simpler models available on request.
- The number of balances — for example one per group table.
- Any other balances or maths lab items to be quoted together.

OEM Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited (CIN U29309HR2020PTC087597), the original equipment manufacturer of the Balance Rocker Bucket. The balance is built at the company's own licensed factory at 449, HSIIDC Industrial Area, Saha, Amba rters buy d to the sa
