Description :

Pipettes (Tubes) 5ml (Product Code: SCI-191/65) is a 5 ml graduated glass pipette used to measure out and transfer moderate volumes of reagents and samples in school and college laboratories. Students reach for this mid-range size when making up small standard solutions, dispensing reagents in salt analysis or running food tests, and its clear glass is listed as chemical and heat resistant. The pipette is produced by **Jain Scientific Equipments Pvt Ltd (ScienceLab)** , an OEM manufacturer of school chemistry lab equipment, in its own factory at Ambala, India.

Specifications

Parameter	Detail
Capacity	5 ml
Material	Glass, clear
Graduation	Graduated scale
Resistance	Chemical resistant and heat resistant
Product code	SCI-191/65
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is a 5 ml Graduated Pipette Used For?

The 5 ml size covers a wide band of everyday lab tasks: measuring acid or reagent for salt analysis, preparing dilutions, and making sugar or salt solutions of different strengths for osmosis experiments in biology. Because it is graduated, one pipette can deliver several different volumes within its range, which keeps the number of pipettes on each bench low.

Before measuring, rinse the pipette with a small amount of the solution it will hold so that water left from washing does not dilute the sample. Check that the tip is undamaged, hold the pipette vertically while reading, and let each delivery drain in the same way so repeated measurements agree.

OEM Manufacturer

This pipette is made by ScienceLab, the trading name of Jain Scientific Equipments Private Limited, at the company's own licensed factory in Saha, Ambala, Haryana. As the original equipment manufacturer, ScienceLab quotes schools, colleges and importers directly and can be asked about matching pieces for later repeat orders. The company is a registered MSME with manufacturing as its main activity (Udyam UDYAM-HR-01-0003714), and export orders ship under Importer-Exporter Code AAECJ8618A (DGFT). See the company profile for more.
