Description :

Probe (18 x 180 mm) (Product Code: SCI-241/89) is a rimless borosilicate glass test tube of 18 x 180 mm, used for heating, reacting and collecting larger sample volumes than a small test tube holds in school and college laboratories. Its wider bore and extra length give room for gas-generation experiments, water-bath incubations and tests that need a delivery tube through a stopper. It is produced by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer of chemistry lab glassware in India, at its own factory in Ambala.

Specifications

Parameter	Detail
Type	Edgeless (rimless) glass test tube
Diameter x length	18 x 180 mm
Material	Borosilicate glass, transparent
Properties	Chemical resistant; heat resistant
Product code	SCI-241/89
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is an 18 x 180 mm Test Tube Used For?

The larger tube suits experiments where a small tube would overflow or boil over: heating solids to decompose them and collecting the gas through a delivery tube, preparing small amounts of a gas for testing, or holding enzyme and digestion mixtures in a water bath. Teachers also use it for demonstrations, where the bigger volume is easier for a class to see.

Because it is longer, clamp it to a retort stand or hold it near the mouth with a test tube holder when heating, and check that your racks and holders take an 18 mm tube. After use, scrub with a tube brush, rinse with distilled water and dry it inverted.

What to Specify When Ordering

- Tube size: 18 x 180 mm under this code; Probe (16x150mm) is the smaller option
- Number of tubes per class set, allowing for breakage
- Racks and holders that fit an 18 mm tube
- Stoppers or delivery tubes, if gas experiments are planned

OEM Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, the OEM that manufactures this test tube at its own licensed factory in Saha, Ambala, Haryana. Buying from the manufacturer gives schools, colleges, dealers and importers a single point of contact for the quotation, the product code and any later replacement tubes. More details are on the ScienceLab profil
