Description :

Periodic Table of Chemical Elements For (Product Code: SCI-426/178) is a laminated periodic table wall chart used as an everyday reference for element symbols and data in chemistry classrooms and laboratories. It is a separate 70 cm x 100 cm edition in our range and suits schools that want a periodic table beside the practical benches as part of their school chemistry lab equipment, not only in the teaching room. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Topic	Periodic table of the chemical elements
Mounting	Wall mounted
Dimensions	70 cm x 100 cm
Surface	Laminated
Used in	Classrooms and laboratories
Product code	SCI-426/178
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is This Periodic Table Wall Chart Used For?

In the laboratory a periodic table is a working tool rather than a poster. Students look up relative atomic masses to work out the molar mass of a solute before weighing it for a solution, check symbols while recording observations, and relate the metals they identify in flame tests or salt analysis to their place in the table. A copy on the lab wall saves trips back to the classroom or to a textbook with wet hands.

The chart also helps with revision: in the weeks before examinations, students can test themselves on symbols, groups and trends simply by looking up at the wall. The laminated face stands up to regular handling and can be wiped clean. Because the catalogue name of this edition is incomplete and the layout is not described in detail, ask us for an image of the print before ordering.

OEM Manufacturer

This periodic table chart is produced by Jain Scientific Equipments Private Limited — known to customers as ScienceLab — as the OEM, at its licensed factory in Saha, Ambala, Haryana, India. Laboratories that order direct from the manufacturer can ask for further copies of the same edition later and get answers about the content from the people who make it. Supply covers schools, colleges, training institutes, dealers and importers in India and international markets. See the company profile.
