Description :

Polyprop Test Tube Basket (Product Code: SLE/P/25) is a polypropylene basket used to rinse, carry and store test tubes and other glassware in school, college and research laboratories. Lab assistants use it to gather tubes after a practical, wash the whole batch at once and move it to a drying or storage shelf without handling each tube separately. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer of lab plastic ware, at its own factory in Ambala, India.

Key Details

Parameter	Detail
Material	Polypropylene (“Polyprop” in the product name)
Intended use	Rinsing, transporting and storing test tubes and other glassware
Product code	SLE/P/25
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Test Tube Basket Used For?

Teaching laboratories use test tubes in large numbers and wash them after almost every session. A basket lets you collect used tubes at the bench, carry them to the sink in one trip, rinse the load together and leave it to drain. Between practicals the same basket keeps clean glassware grouped on a shelf, so small items are not rolling loose in a drawer.

For good results, rinse tubes soon after use so residues do not dry on, and scrub stubborn deposits with a test tube brush before the tubes go into the basket. Avoid stacking heavy glassware over thin-walled tubes, and carry the basket with both hands when it is full of wet glass. It is a practical addition to school chemistry lab equipment in India, where one lab assistant often prepares glassware for several classes a day.

OEM Manufacturer

Jain Scientific Equipments Private Limited, which trades under the ScienceLab name, is the original equipment manufacturer (OEM) of the Polyprop Test Tube Basket. The basket is produced at the company’s own licensed factory at Saha, Ambala, Haryana, so schools, colleges and dealers buy it from the maker rather than from a trading intermediary. For replacement baskets or repeat orders, ask us and the request is handled by the manufacturer itself. You can read about the company on the ScienceLab company profile page.

Related Scientific Lab Plasticware

These items are used with the test tube basket when cleaning, drying and storing tubes:

- Brush Test Tube — scrubs residues from tube walls before rinsing.
