Product Name :

Brights Tangrams Class Pack

Product Code :

SLE/MAT/35

Description :

Brights Tangrams Class Pack (Product Code: SLE/MAT/35) is a classroom set of tangram pieces used to teach shape identification, comparison, composition and symmetry to a whole class at once. The pack holds 210 shaped pieces, enough for 30 complete tangrams, in 6 vibrant colours. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, for schools setting up or restocking a maths lab.

Specifications

Parameter	Detail
Pieces	210 shaped pieces
Tangrams	Enough to make 30 tangrams (set of 30)
Piece shapes	Small, medium and large triangles, squares and parallelograms
Colours	6 vibrant colours
Topics	Shape identification, comparison and composition, symmetry
Product code	SLE/MAT/35
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Brights Tangrams Class Pack Used For?

With 30 tangrams in one pack, up to 30 pupils working individually can tackle the same puzzle at the same time. Students identify each piece, compare the three triangle sizes and compose the pieces into squares, animals or letters, which builds the idea that larger shapes are made from smaller ones. Rotating and flipping the parallelogram to fit an outline is a direct, hands-on way into symmetry and transformations.

The six colours help when handing out and collecting sets, and make it easier to spot pieces that have strayed. For schools drawing up an educational lab equipment list for primary maths in India, tangrams are a natural early item because children can start without instructions and progress from simple matching to challenging silhouettes.

Supplier

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, which supplies the Brights Tangrams Class Pack from Ambala, Haryana, India. The pack is sourced for schools, colleges, dealers and importers in India and international markets, and can be shipped together with other maths lab items in a single order. Company details are on the ScienceLab profile.
