Description :

China Dish (Product Code: SCL287/048) is a round, white porcelain evaporating dish used to drive water off a solution so that the dissolved solid remains or crystallises, in school, college and technical labs. Its 3 inch diameter and pouring spout suit student-scale work, and crystals showup clearly against the chemical-resistant white porcelain. This evaporating dish for lab use inIndia and abroad is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Material	Porcelain
Colour	White
Shape	Round
Spout	With spout
Diameter	3 inches
Chemical resistance	Chemical resistant
Product code	SCL287/048
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the China Dish Used For?

A common first practical is recovering salt from a salt solution: the solution is filtered, poured into the dish and heated gently until most of the water has gone, leaving white crystals. In crystallisation activities for school classes, a warm saturated solution of copper sulphate is concentrated in the dish and then left to cool so that blue crystals grow. Biology students use the same dish to concentrate plant extracts or to dry small samples before weighing.

Support the dish on a tripod with a wire gauze and heat it steadily rather than fiercely; when only a little liquid remains, lower the flame to stop the solid spitting. The spout lets you pour off the remaining liquid or decant a solution without dribbling down the outside. Lift a hot dish with tongs and let it cool on a heat-proof mat, not on a cold wet bench.

OEM Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, is the OEM (original equipment manufacturer) of this china dish and produces it at its own licensed factory at Saha, Ambala, Haryana, India. The company is a registered MSME manufacturer (Udyam UDYAM-HR-01-0003714) and ships export orders under Importer-Exporter Code AAECJ8618A issued by the DGFT. Schools, colleges, dealers and importers buy factory-direct, and repeat orders for matc
