Description :

Meter Scale (Product Code: SCL308/054) is a wooden measuring scale used to measure lengths and demonstrate measurement in classrooms and school laboratories. Its clear lacquer finish and durable design make it both a teaching tool at the board and an effective hand tool on the lab bench, one of the simplest biology teaching aids for Indian schools. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer of school biology lab equipment in India, at its own factory in Ambala.

Key Details

Parameter	Detail
Type	Meter scale
Material	Wooden
Finish	Clear lacquer
Purpose	Teaching tool as well as measuring tool
Suitable for	Classroom use and an array of other uses
Design	Durable, effective hand tool
Product code	SCL308/054
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Meter Scale Used For?

Biology classes use a meter scale to record the height of seedlings through a growth experiment, to lay out and check the sides of a quadrat or a line transect on the school field, and to measure leaf length, stem length or student height and arm span in studies of variation. Teachers also use it at the board to draw straight lines and demonstrate measurement, which is why it appears on almost every school laboratory setup list. In college practicals it lets students read longer lengths quickly.

To avoid parallax error, look straight down at the mark rather than from an angle, and place the scale on its edge so the graduations touch the object being measured. If the end of the scale has become worn, start the measurement from a clear graduation instead of the very end and subtract. Store the scale flat or hanging, away from damp and direct heat, so the wood does not warp; the lacquer surface can simply be wiped with a dry cloth.

OEM Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, the OEM (original equipment manufacturer) that makes this meter scale at its own licensed factory at Saha, Ambala, Haryana, India. Schools, colleges, dealers and importers order it factory-direct, and repla For institu 06AA rofile.
