Product Name :

Litmus Sol Red/Blue

Product Code :

SCL397/0108

Image not found or type unknown

Description :

Litmus Sol Red/Blue (Product Code: SCL397/0108) is a liquid litmus indicator used to classify test solutions as acidic, basic or neutral in school and college science labs. Listed as analytical reagent grade in a 500 ml pack, it is a standard part of any acid base indicator kit for middle-school chemistry and junior biology classes. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, together with an MSDS.

Specifications

Parameter	Detail
Product	Litmus solution, red / blue
Grade	Analytical reagent
Capacity	500 ml
Documentation	MSDS included
Shelf life	Depends on the chemical, its grade and storage conditions; ask usfor the expiry date of the batch you are quoted
Product code	SCL397/0108
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is Litmus Solution Used For?

Students add litmus solution to everyday samples — lemon juice, vinegar, soap solution, baking soda solution, tap water — and record whether blue litmus turns red, red litmus turns blue, or neither changes. The liquid form suits these activities because it mixes evenly through a test tube of sample and gives a colour the whole group can see, whereas litmus paper school labs in India keep on hand is quicker for single spot checks. In biology lessons it shows that soil extracts, fruit juices or products of digestion are acidic or alkaline before more exact pH work.

Litmus shows only whether a sample is acidic or basic; it does not give a pH value. For that, follow up with a universal indicator or pH paper. Pour working amounts into dropper bottles, never return used indicator to the stock bottle, and rinse test tubes well so leftover acid or alkali does not change the next result.

What to Specify When Ordering

- Colour: red litmus solution, blue litmus solution, or both — and how many of each
- Number of 500 ml packs needed per lab or per school
- Whether red or blue litmus paper is also needed for spot tests in the same lesson
- Delivery location, so dispatch of the reagent can be confirmed for your order

Manufacturer

Litmus solution is manufactured by **Jain Scientific Equipments Private Limited** under its tradi
indica e
order
