Description :

Spirit (Product Code: SCL438/0126) is a laboratory alcohol used to fuel spirit lamps, clean slides and instruments, and prepare or keep specimens in school and college biology labs. Its large 2 litre pack of analytical reagent grade suits institutions that run several practical batches each week, and it is dispatched with an MSDS. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a lab consumables supplier for schools and colleges.

Specifications

Parameter	Detail
Product	Spirit
Pack capacity	2 litres
Grade	Analytical reagent
Documentation	MSDS supplied
Shelf life	Depends on the chemical, its grade and storage conditions; ask usfor the expiry date of the batch you are quoted
Product code	SCL438/0126
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is Laboratory Spirit Used For?

Most bottles of spirit in a school lab end up in spirit lamps, which give a clean, small flame for flaming inoculation loops and needles, warming a stained slide gently, or heating a test tube in a botany practical. Spirit is also the usual liquid for wiping grease and fingerprints off glass slides before mounting, cleaning dissection instruments after use, and swabbing work surfaces at the end of a microbiology session. In slide-making work, alcohol is used to dehydrate stained sections before mounting, and teachers often keep collected specimens in spirit for short-term study.

The word spirit can mean different alcohol-based products in different syllabi and regions, so tell us whether your manual specifies rectified, methylated or another type and we will confirm what this pack supplies. Treat it as a flammable liquid: refill lamps only after they have been put out and cooled, never overfill the reservoir, decant from the 2 litre pack into a smaller labelled bottle for bench use, and store the main container in a cool cupboard away from flames.

Supplier

Spirit is supplied by **Jain Scientific Equipments Private Limited**, located in Ambala, Haryana, which trades as **ScienceLab**. Alongside reagents like this one, the company supplies glassware, instruments and teaching apparatus for laboratories in India and international markets. Learn more on our company profile.
