Description :

Human Teeth (Denture) (Product Code: SCL520/0235) is a giant dental model used to demonstrate correct tooth brushing and the types of teeth in school health and biology lessons. Made at 2 times full size with dissectible parts and a toothbrush, it lets a whole group follow the brushing technique on an enlarged set of teeth, which makes it a useful part of a health education kit for schools. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Giant teeth (denture) model with dissectible parts
Scale	2 times full size
Included	Toothbrush
Product code	SCL520/0235
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Human Teeth (Denture) Model Used For?

The enlarged scale makes good brushing technique easy to show and easy to copy: tilt the bristles towards the gum line, use small, gentle strokes, and clean the outer, inner and chewing surfaces of every tooth. Children can then take turns with the brush while classmates check that no surface has been missed, which turns a talk about tooth care into a short, memorable activity.

In biology lessons the same model helps students pick out incisors, canines, premolars and molars and relate each shape to biting, tearing or grinding food, the first stage of digestion. Brush the model with plain water rather than toothpaste so that no residue builds up between the teeth, then wipe it dry before it goes back in the cupboard.

OEM Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, is the OEM (original equipment manufacturer) of this giant denture model and makes it at its own licensed factory at Saha, Ambala, Haryana, India. Health programmes, schools and dealers therefore buy directly from the maker rather than from a trading house, and can come back to the same manufacturer for repeat orders or a replacement brush; just ask. More background is on our company profile.
