**Product Name :**

Inclined Plane with Roller & Pan

**Product Code :**

“SCL220/010”

## **Description :**

### **DESCRIPTION :-**

- Comprises an aluminium inclined plane of size 600 x 100 mm (L xW) hinged to an aluminium base board of size 600 x 100mm (Length x Width).
- An arch scale graduated 0 degree x 45 degree x 1 degree, mounted base board given angle of inclination.
- With meter Roller & weight Pan with cord and trolley, Superior Quality.
- For demonstrating the composition of a force and for determining the coefficients of friction between different materials.
- Comprising of a wooden base, hinged inclined plane and pulley.
- Supplied with cylindrical metal roller and scale pan.
