Product Name :

Probability Kit

Product Code :

SLE/MAT/50

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Probability Kit (Product Code: SLE/MAT/50) is a classroom set of chance devices used to run hands-on probability experiments in school maths lessons. It combines a wooden probability board, a spinner, 4 dice in different colours, 20 coins, playing cards and 400 marbles in 4 colours, so pupils can test many kinds of events with one kit. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer of mathematics lab equipment, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Probability board	1, wooden
Spinner	1
Dice	4, in 4 different colours
Coins	20
Playing cards	Included
Marbles	4 boxes, 400 pcs in 4 colours
Concepts	Sample space, event space, dependent, independent and mutually exclusive events, random probability
Product code	SLE/MAT/50
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Probability Kit Used For?

The Probability Kit lets pupils discover probability by experiment before meeting the formulas. Tossing coins and rolling dice give equally likely outcomes for listing a sample space, while drawing marbles of different colours shows how the chance of an event depends on how many favourable items there are.

The same materials demonstrate harder ideas. Drawing two marbles without putting the first back shows dependent events, a coin toss followed by a spin shows independent events, and a single playing card that cannot be both a heart and a spade illustrates mutually exclusive events. Groups can then compare their recorded frequencies with the theoretical probabilities.

OEM Manufacturer

The Probability Kit is an original product of Jain Scientific Equipments Private Limited, which trades as ScienceLab and acts as its OEM. The company puts the kit together at its own licensed factory in Saha, Ambala, Haryana, India, and quotes schools, colleges, dealers and importers directly. If a kit later needs replacement marbles, coins or dice, ask the manufacturer about them.
