Description :

Dummy Coins (Product Code: SLE/MAT/72) is a set of eight play coins used to teach money handling, coin recognition and adding or subtracting amounts in primary maths lessons. Teachers use it for buyer-and-seller role play, and the set spans six denominations from 25 paise to 10 rupees, each coin 2.5 cm across. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer and school laboratory equipment supplier in India, at itsown factory in Ambala, as part of its mathematics lab kits.

Specifications

Parameter	Detail
Coins per set	8
Denominations	25 paise and 50 paise (2 pieces each); 1 rupee, 2 rupee, 5 rupee and 10 rupee (1 piece each)
Coin diameter	2.5 cm (25 mm)
Learning focus	Currency awareness, making an amount from a combination of coins, addition and subtraction, everyday money transactions
Typical activity	Buyer-and-seller role play with real amounts
Product code	SLE/MAT/72
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Are Dummy Coins Used For?

Dummy coins turn an abstract sum into something a child can hold. In a pretend shop, one learner prices an item, another pays with a mix of coins, and together they work out the change — practising addition and subtraction with real denominations instead of bare numbers. Asking pupils to find different coin combinations for the same amount builds number sense and early problem-solving.

Because each set holds only eight coins, many classrooms plan one set per pair or small group so that every child handles the money. Counting the coins back into their set after each lesson keeps sets complete, and the same coins work later for word problems about spending, saving and change.

What to Specify When Ordering

- Number of sets needed (each set contains 8 coins).
- Whether the standard denomination mix — two each of 25 and 50 paise, one each of 1, 2, 5 and 10 rupees — suits your lesson plan.
- Other maths aids, such as dummy currency notes, that should be quoted on the same order.
- Delivery location, for a single school or school lab equipment bulk supply to several sites.
