Description :

Test Tube Racks (Product Code: SLE/CH/20) are sturdy beech wood racks offered in two sizes — for 6 tubes or for 12 tubes — with a carefully polished finish that helps the wood resist damage from everyday spills. As school chemistry lab equipment in India, they give each student or group a stable place to stand test tubes during reactions, observations and waiting steps. The racks are made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as part of our educational lab equipment for schools and colleges in India and international markets.

Specifications

Parameter	Detail
Type	Wooden test tube rack
Material	Beech wood, robust build
Available sizes	6 tubes and 12 tubes
Finish	Finely polished to minimise damage from spills
Customisation	Can be made to individual preference on request

Typical Use

Choosing between the two sizes is mostly about how the class is organised. The 6-tube rack suits an individual student doing a short sequence of tests, such as the preliminary tests in salt analysis or a set of indicator colour changes. The 12-tube rack suits a pair or small group running comparisons side by side — for example a reactivity series, a set of food tests or a dilution series where each tube needs to stay in order.

Many schools buy a mix: a 6-tube rack for each student position and a few 12-tube racks for demonstrations and group work. Keep the racks dry after washing up, stand hot tubes on a heat-resistant mat for a moment before returning them, and label positions with a marker strip when the order of tubes matters.

Manufacturer

These racks are manufactured by **Jain Scientific Equipments Private Limited**, trading as **ScienceLab** in Ambala, Haryana. For purchase departments and tender buyers who need vendor registration details, the company's GSTIN is 06AAECJ8618A1ZT and its Legal Entity Identifier is 3358004HRD1JIVXKYX49. Our company profile has more information.

Related Chemistry Lab Equipment

Products commonly ordered with test tube racks:

- Test Tube 12 x 100 mm — glass test tubes for stocking student racks
- Test Tube Holder, Metal — for holding a tube safely while heating
- Brush, Bristle Test Tube Fan Shape — for cleaning tubes after the practical
