Description :

Aspirator with stopcock (Product Code: SLE/P/31) is a laboratory storage vessel fitted with a stopcock outlet, used to hold and dispense distilled water or prepared solutions in school, college and industrial laboratories. It has a carrying handle, is built strong and durable for extended use, and can be used in ambient temperatures below 0°C. The aspirator is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Capacity options	10, 20, 30 (unit not stated in our listing; confirm with us)
Outlet	Stopcock
Handle	Carrying handle
Cap	Cap with holes to seal
Operating conditions	Can be used in ambient temperatures below 0°C
Construction	Strong and durable for extended use
Product code	SLE/P/31
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Aspirator Bottle Used For?

An aspirator stores a working volume of liquid and releases it through its stopcock, so users can fill wash bottles, beakers or flasks without lifting and tipping a heavy container. Laboratories typically keep one filled with distilled or deionised water on a shelf above the bench, or use it as a reservoir for a stock solution that several groups draw from during a practical.

Place the aspirator on a firm raised surface so a vessel fits under the stopcock, fill it through the cap opening, and close the stopcock fully before lifting it by the carrying handle. Because it can be used in ambient temperatures below 0°C, it also suits cold rooms and unheated stores in winter. An aspirator is a useful part of any new school lab setup in India, keeping distilled water within reach of the benches.

What to Specify When Ordering

- Which capacity option you need: 10, 20 or 30 (we will confirm the unit with your quotation).
- How many aspirators of each capacity.
- The liquid you plan to store, so we can confirm suitability.

OEM Manufacturer

The Aspirator with stopcock is an OEM product of Jain Scientific Equipments Private Limited, which ala, Harya a middl comp
