Product Name :

Male Skeletal Pelvis

Product Code :

SLE/A/07

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Male Skeletal Pelvis (Product Code: SLE/A/07) is an approximately life-sized plastic model ofthe male bony pelvis used to teach the pelvic girdle, and how it differs from the female pelvis, in anatomy, physiotherapy and forensic-science classes. An included key identifies 36 labelled structures, which makes it a self-checking biology teaching aid for pelvic anatomy. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM anatomical models manufacturer,at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Male skeletal pelvis
Material	Plastic
Scale	Approximately life-sized
Labelled structures	36, identified on the included key
Product code	SLE/A/07
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Male Skeletal Pelvis Used For?

A first session usually walks through the pelvic girdle as a whole: the two hip bones, the sacrum at the back and the joints that hold them in a ring. With the key in hand, students locate each of the 36 labelled structures and note the attachment points for the powerful muscles of the hip and trunk. The model then becomes a reference for how body weight passes from the vertebral column through the pelvis to the legs.

Placed next to a female pelvis, it shows the classic differences clearly — a taller, narrower and heavier build with a tighter angle below the pubic bones — which is why anatomy, physical anthropology and introductory forensic courses keep both. Physiotherapy students also use it when studying pelvic alignment and posture.

OEM Manufacturer

As OEM (original equipment manufacturer), Jain Scientific Equipments Private Limited — the company that trades as ScienceLab — makes the Male Skeletal Pelvis at its own licensed factory at Saha, Ambala, Haryana, India.

Colleges ordering a male and female pair can have both quoted by one manufacturer, with no trader in between, and repeat orders follow the same route. Visit the company profile to read more.
