Description :

Human Brain with Arteries Model (Product Code: SLE/A/14) is an about-life-size, 8-part dissectible brain used to teach the lobes, internal structures and arterial blood supply of the brain in anatomy, nursing and medical classes. Its numbered key identifies 32 structures, and themodel sits on a blue base measuring 14.5 x 20 x 17 cm overall. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM anatomical models manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Scale	About life size
Size (with base)	14.5 x 20 x 17 cm
Dissection	Dissectible into 8 parts
Key	Numbered key identifying 32 structures
Structures identified	Main arteries, lobes of the brain and many internal structures
Base	Blue base
Product code	SLE/A/14
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Human Brain with Arteries Model Used For?

With 32 numbered structures, this model is well suited to structured identification work and practical examinations. Instructors set up spotting stations where students name a numbered structure, state whether it is an artery, a lobe or an internal feature, and give its function or territory. Because the arteries are shown on the same brain as the lobes, learners can link each main artery to the region it supplies, a key step in understanding stroke and other vascular conditions.

In a teaching sequence, begin with the assembled model to identify lobes and the main arteries, then open the 8 parts to reach the internal structures listed on the key. This progression makes it versatile biology lab equipment in India's nursing, physiotherapy and medical colleges as well as university zoology departments. Store it assembled on its blue base to keep the parts together.

OEM Manufacturer

This brain-with-arteries model is an original ScienceLab product. Jain Scientific Equipments Private Limited, trading as **ScienceLab**, acts as the OEM (original equipment manufacturer) and makes it at its own licensed factory at Saha, Ambala, Haryana, India.
