Product Name :

Human Half Head Model

Product Code :

SLE/A/28

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Human Half Head Model (Product Code: SLE/A/28) is a life-size half head used to teach deep midline anatomy and superficial dissection of the head together, as biology lab equipment for medical, dental and allied-health colleges. Its median section shows the central nervous system, mouth, nasopharynx and vertebral column, while the right side is dissected to reveal musculature, blood vessels and nerves. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Scale	Life size
Size	18 x 22 x 41 cm (H)
Mounting	On stand with base
Median section	Anatomy of the central nervous system, mouth, nasopharynx and vertebral column
Dissected side	Right side dissected to reveal musculature, blood vessels and nerves
Product code	SLE/A/28
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Human Half Head Model Used For?

The value of this model lies in moving from surface to depth. On the dissected right side, students first identify the layers of muscle and then follow blood vessels and nerves as they run across the face and head. Turning the model around to the median section, they see the brain and spinal cord in the midline, the mouth and nasopharynx, and the vertebral column that supports the head. Linking the two faces helps learners understand how superficial structures relate to the organs beneath them, which matters in dental, ENT, physiotherapy and nursing courses.

Because it is life size and mounted on a stand, the model can be placed at the front of a lecture room or on a practical bench for small-group work. It is a sound addition to a medical college or senior-school biology lab setup where one model must cover head anatomy from several angles. Keep it upright on its stand and clean it with a dry or lightly damp cloth.

OEM Manufacturer

Every Human Half Head Model is produced by ScienceLab itself. Jain Scientific Equipments Private Limited, which does business as **ScienceLab**, is the OEM (original equipment manufacturer) and makes the model at its own licensed factory at Saha, Ambala, Haryana, India.
