Product Name :

Human Brain with Arteries Model-1

Product Code :

SLE/A/29

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Human Brain with Arteries Model-1 (Product Code: SLE/A/29) is an anatomical teaching model of the human brain shown with its arteries, used to explain the blood supply of the brain as a biology teaching aid in school, nursing and medical classrooms. Teachers and faculty choose itas a three-dimensional reference for cerebral circulation, and its detailed specification is providedon request. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEMmanufacturer of school biology lab equipment in India, at its own factory in Ambala.

Key Details

Parameter	Detail
Type	Anatomical teaching model
Subject	Human brain with its arteries
Variant	Model-1 in the Human Brain with Arteries series
Suitable for	Teaching the blood supply of the brain in biology, nursing and medical courses
Size, parts and key	Current specification provided on request
Product code	SLE/A/29
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Human Brain with Arteries Model-1 Used For?

A brain-with-arteries model supports lessons on cerebral circulation: where the blood reaching the brain comes from, how the major vessels are arranged around the base of the brain, and which areas each vessel serves. Seeing vessels and brain tissue together in three dimensions helps students understand why an interruption of blood flow affects particular functions, which is central to teaching about stroke in nursing and medical programmes.

Teachers commonly pair such a model with diagrams and a whole-brain model so that learners first recognise the main brain regions and then add the vascular layer. Handle it over a bench and keep it clean with a soft cloth. Please request the current specification sheet before ordering so the model can be matched to your syllabus.

OEM Manufacturer

ScienceLab, the brand of Jain Scientific Equipments Private Limited, is the original equipment manufacturer (OEM) of the Model-1 brain with arteries and makes it at its own licensed factory at Saha, Ambala, Haryana, India, for schools, colleges, dealers and importers.

Since the specification sheet, the quotation and any later repeat order all come from the factory that produces the model, buyers get their answers first-hand. Our company profile has further inform
