Description :

Astronomy Clever Catch (Product Code: SLE/GG/15) is a 24-inch question ball that turns astronomy revision into a game. Players toss the ball to one another, and whoever catches it reads out and answers the astronomy question found under their left thumb. It is a creative way for children to learn astronomy concepts, and the included list of game suggestions, directionsand answers means teachers can start playing straight away. Primary and middle-schoolteachers, science clubs and activity centres use it as a lively addition to their astronomy labequipment. The game is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala.

Key Details

Parameter	Detail
Type	Question-and-answer catch ball game
Ball size	24 inch
Subject	Astronomy concepts
How it is played	The catcher answers the question under their left thumb
Included	List of game suggestions, directions and answers
Suitable for	Children learning astronomy; classroom review and group games

Typical Use

Arrange students in a circle and start with a simple round: the catcher reads the question under their left thumb, answers it, and tosses the ball on. Because the ball offers many variations of play, teachers can switch formats to suit the lesson — team scoring, “pass it on” where the next player must answer, or a quick-fire round to revise planets, stars and the Moon before a test. The answer list lets the teacher or a student referee confirm responses without slowing the game.

The game works well as a warm-up at the start of a space unit, as an end-of-term review, or as a break between more formal activities with models and globes. Play in a hall or open classroom space away from lights and glassware, and wipe the ball with a slightly damp cloth after use to keep the printed questions readable.

Supplier

ScienceLab, the trading name of Jain Scientific Equipments Private Limited in Ambala, Haryana, supplies this game as part of its geography and astronomy teaching range. For vendor registration, the company's GSTIN is 06AAECJ8618A1ZT, and its export shipments are handled under Importer-Exporter Code AAECJ8618A issued by the DGFT. See our company profile for more details.
