Description :

Economy Polyethylene Lab Apron (Product Code: SLE/SLC/11) is a disposable embossed polyethylene apron used to keep clothing clean when working with non-aggressive or non-hazardous chemicals in school and college labs. Measuring 28 x 46 inches with a 1.5-mil film, it is an economical throwaway cover for large practical classes, visitors and short tasks. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a lab coat supplier in India, as part of its disposable lab equipment range.

Specifications

Parameter	Detail
Material	Embossed polyethylene
Type	Disposable
Size	28 x 46 inches
Thickness	1.5 mil
Suitable for	Non-aggressive or non-hazardous chemicals
Product code	SLE/SLC/11
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Polyethylene Lab Apron Used For?

This apron is meant for low-risk practicals: food tests, water sampling, plant and soil activities, and demonstrations with dilute, non-hazardous solutions. Each student gets a fresh apron, and it goes in the bin at the end of the lesson, so there is no laundry or shared-apron hygiene to manage.

It is not designed for corrosive or hazardous chemicals — switch to a rubberized or PVC apron for acids and strong reagents. Schools that restock through a lab consumables supplier in India often keep a stock of these aprons for open days, visitors and newly joined students.

Supplier

Jain Scientific Equipments Private Limited, whose trading name is ScienceLab, supplies the Economy Polyethylene Lab Apron from Ambala, Haryana, to schools, colleges, laboratories and dealers in India and international markets. It is a sourced consumable in our Safety Lab Coat range. Export shipments are handled under Importer-Exporter Code AAECJ8618A (DGFT), and the supplying company's GSTIN is 06AAECJ8618A1ZT for vendor registration. See the ScienceLab profile for company details.
